CONTRACT CLAUSES

1.- The contracting parties declare: a) That the employer is a public university and, in accordance with the provisions of art. 20 of Law 14/2011, of 1 June, on Science, Technology and Innovation (hereinafter, L14/2011), is qualified to hire research staff through the specific employment contract modalities established therein. In addition to L14/2011, Royal Decree 103/2019, of 1 March, approving the Statute of predoctoral research staff in training and the bases of the call for applications from which this contract is based, as applicable, it will be governed by the provisions of: Organic Law 2/2023, of 22 March, of the University System; the revised text of the Law on the Basic Statute of Public Employees, approved by Royal Legislative Decree 5/2015, of 30 October; the revised text of the Workers' Statute Law, approved by Royal Legislative Decree 2/2015, of 23 October; Law 53/1984, of 26 December, on Incompatibilities of Personnel in the Service of Public Administrations; Royal Decree 598/1985, of 30 April, on incompatibilities of personnel in the service of the State Administration, Social Security and dependent Entities, Bodies and Companies; Decree 84/2003, of 29 April, of the Government of Aragon, which regulates the legal and remuneration regime of the teaching and research staff contracted at the University of Zaragoza; the Statutes of the University of Zaragoza, approved by Decree 23/2025, of 28 February, of the Government of Aragon; the II Collective Agreement for the teaching and research staff contracted by the University of Zaragoza (BOA no. 25, of 5 February 2024) – hereinafter, the Collective Agreement-; the Regulations of the University of Zaragoza on the recruitment of research staff, approved by agreement of 21 December 2011 (BOA no. 38, of 24 February 2012), of the Governing Council of the University of Zaragoza and other regulations that may be applicable. b) That the person hired will provide their services as predoctoral research staff in training.

2.- The purpose of the contract is to carry out research tasks within the programme of the aid from which it is based. That the contract is attached to the research project within the IberusINTERDOC programme (first call) that appears on the front and that is funded by the European Union in the HORIZON-MSCA-2023-COFUND-01 call. Likewise, the contract will have as its object postdoctoral orientation in the terms regulated in L14/2011 and, where appropriate, in the bases of the corresponding call. In addition, the person hired may request authorisation to collaborate in teaching tasks with the maximum limit, the application procedure and the conditions and requirements established both in the call for the aid programme and in the regulations of the University of Zaragoza in force at any given time regulating collaboration in regulated teaching of those who do not have the statutory or contractual status of teaching staff. In any case, in accordance with the provisions of art. 4.2 of the Statute of predoctoral research staff in training, such collaboration may be up to a maximum of 180 hours during the total extension of the predoctoral contract and in no case may it exceed 60 hours per year.

3.- The dedication regime will be full-time. The working day and schedule will be governed by the provisions of the Collective Agreement, which establishes that the working day will have the same duration as that of teaching and research staff and, where appropriate, civil servant research staff (at this time it is 37 hours and 30 minutes in weekly calculation). This working day will be applicable unless a different one is established in the regulations, programme, call or aid originating the contract.

4.- This contract will begin and end on the dates shown on the front as the start date and end date of the contract, without prejudice to what, with respect to its termination, appears in the terms and conditions of the public call for the origin of the contract and the causes of termination established in the Workers' Statute.

5.- A probationary period is established in accordance with the maximum duration, limits and effects determined in article 14 of the revised text of the Workers' Statute Law.

6.- The suspension of the contract for the reasons provided for in the revised text of the Workers' Statute Law will not entail an extension of its duration. However, the situations contemplated in art. 21 c) of Law 14/2011 and those of a similar nature that may be foreseen in the original call for tenders will suspend the calculation of the duration of the contract under the terms and conditions established in the call for tenders.

7.- The duration of the contract will be linked to the permanence in the corresponding doctoral programme. The employment contract may be terminated in the event that the person hired does not pass favourably the evaluations of the activity carried out during their stay in the doctoral programme or the scientific-technical monitoring reports that may be provided for in the call for applications originating the contract. Unless there is a transition to the postdoctoral orientation period, the contract will be terminated when the person hired obtains the official university degree of doctor, considering, for these purposes, that the doctoral degree has been obtained on the date of the act of defense and approval of the doctoral thesis.

8.- The remuneration to be received by the person hired is that which appears on the front of this contract, in accordance with the terms and conditions of the call for tenders for which it is based. Their amounts will be subject to the deductions and withholdings that are legally applicable at any time, in accordance with the applicable provisions regarding contributions to the General Social Security and Personal Income Tax Regime. In addition, they will receive 1,499.81 euros (this amount does not include the company's contribution to Social Security) for mobility in the first month of their contract to cover the expenses of this nature. In accordance with article 18 and annex 5 of the G.A., the person hired may not receive, for the activities to be carried out within the framework of the action of the contract, income different from that received by the beneficiary for the development of the project. With regard to the salary increases that correspond to public employees, the compensation and absorption mechanism will be applicable to this contract, in accordance with the provisions of article 66.2 of the II Collective Agreement of the Teaching and Research Staff of the University of Zaragoza (BOA on 5 February 2024). Any type of increase in salary will be compensated by a reduction in the supplement, so that remuneration is constant.

9.- Annual leave is governed by the provisions of the Collective Agreement, unless other regulations are established in the regulations, programme, call or aid originating from the contract.

10.- In accordance with the provisions of art. 49.1 c) of the Workers' Statute, at the end of the contract due to the expiration of the agreed time, the person hired will be entitled to receive compensation of an amount equivalent to the proportional part of the amount that would result from paying twelve days' salary for each year of service or to the established amount. where appropriate, in the specific regulations that are applicable.

11.- When the person hired, at the time of signing this contract, does not provide documentary evidence of the result of the prior medical examination, in cases where it is mandatory, this contract will be provisional. In the event that the result of the recognition is 'pass', the contract will become final and, if, on the other hand, the result of said recognition is 'unsuitable', this contract will be terminated on the date on which the University becomes aware of the result.

12.-In accordance with the provisions of Article 21 of Law 14/2011, the purpose of this contract is to carry out exclusively the activities related to the research project, programme or contract that appears on the front. The name of the supervisor of the training activities described in the line of research: CO2 mitigation: capture, utilization and process decarbonization and in Grant Agreement No. 101178498 (hereinafter G.A.) of the grant object of this contract is Dr. María Reyes Mallada Viana. In accordance with the requirements and obligations established in the GA, the person hired undertakes the following:

a) To join the entity within the planned period and to enrol in a doctoral programme related to the line of research, as well as to carry out the activities described in the doctoral plan.
b) work exclusively for the action in which it has been contracted (art. 6 of the G.A.)
c) to present the scientific-technical monitoring reports referred to in Article 21 of the G.A.
d) complete and send to the European Commission the evaluation questionnaires required in accordance with Article 18 and Annex 5 of the G.A.
e) to inform the University of Zaragoza and Campus Iberus in advance or immediately of any event or circumstance that may affect the implementation of the project or compliance with the requirements of the G.A. (art. 19 and annex 5 of the G.A.)
f) to maintain confidentiality under the terms of Article 13 and Annex 5 of the G.A
g) to ensure the visibility of European funding in communications, publications, applications for the protection of results and in any other dissemination activity in accordance with the provisions of Article 17 and Annex 5 of the G.A.
h) to ensure that research activities comply with ethical principles established in Article 14 and Annex 5 of the G.A.
i) Comply with any other provision of G.A. No. 101178498.
j) Work centre: Department of Chemical Engineering and Environmental Technologies. Institute of Nanoscience and Materials of Aragon (INMA).

13.-The agreements related to intellectual property rights between the University of Zaragoza and the person hired, both during the development of the project and after it, will be governed by art. 16 and annex 5 of the G.A. The University of Zaragoza will guarantee that the researcher will have full royalty-free access to the previous knowledge and results necessary to develop their activities in the Project.

14.-The person hired declares that he/she meets each and every one of the eligibility criteria to be able to sign this contract, established in the call for the IberusINTERDOC project framed in the HORIZON-MSCA-2023-COFUND-01 program. Among them, the researcher declares to have obtained a higher education degree that allows him to access a doctoral programme before the closing of the call, and not to be in possession of a doctoral degree, and to comply with transnational mobility to carry out research training activities in a country in which he has not resided or carried out his main activity for more than 12 months in the 3 years immediately prior to the Deadline for the call. In the event that the University of Zaragoza becomes aware that any of the eligibility criteria has not been met by the person hired, this will be cause for termination of the employment contract, without prejudice to compensating the University of Zaragoza in the amount equivalent to that which the University of Zaragoza must reimburse the European Commission.

15.-At the time of signing this contract, the person hired, of non-EU foreign nationality, has an initial residence permit for training or research valid until 10/11/2028. If the person hired does not prove the validity of the authorisation within 15 days of the end of the current authorisation or does not prove that he or she has initiated the procedure for the renewal of this authorisation, the contract will be terminated at the end of this period. Likewise, the contract will be terminated on the date on which the authorisation expires if it has not been granted. The person hired is obliged to communicate to the University of Zaragoza through the Research Personnel Management Unit (GESPI) any of the above circumstances at the time they become aware of them.

16.-At the time of signing this contract, the person to be hired has not provided any sufficient academic qualification of an official nature and valid in Spain, nor the resolution granting recognition or the declaration of equivalence to an official academic level, regulated in Royal Decree 889/2022, of 18 October; however, it has provided the request to initiate the procedure to obtain it. For this reason, the validity of this contract is conditional on the application being resolved favourably and on the interested party submitting the resolution, within two days from the day following its receipt, to the Research Personnel Management Unit (GESPI) of this University. In the event that the resolution of the application for recognition or declaration of equivalence to an official academic level is rejected or that the interested party does not submit the resolution within the aforementioned period, with effect from the day following the end of the period, this contract will be terminated. Since, in accordance with the provisions of Article 18 of the aforementioned Royal Decree 889/2022, the maximum period for resolving and notifying the resolution of the procedure is six months, counting from the date on which the application has been entered in the electronic register of the Ministry competent in the matter, and that the lack of an express resolution within the indicated period will allow the application to be understood to have been rejected due to administrative silence, in this case, the employment contract will be terminated with effect from the day following the end of the aforementioned six-month period, without prejudice to the fact that the period for resolving and notifying is suspended in the cases and terms provided for in article 14.2 of said Royal Decree.

17.- The content of this contract will be communicated to the corresponding public employment office, within 10 days of its conclusion, in the form and with the data regulated by the provisions in force.

18.-The contracting parties, by means of an electronic signature, expressly accept the content of this contract, which is formalized in a standardized form and contains numbered pages of which it consists.
